Milk Coolers - Dual Sided Door

Milk Coolers
 Super Deluxe Series

Model : TMKC-58-2-WS-N6

FEATURES & BENEFITS

Hydrocarbon refrigerants (R-600a)

With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet DOE's Energy Conservation Standards in 2017 and to use EPA's SNAP Program approved HC refrigerants. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

Convenient bottom floor drain standard with hose adapter

Floor drain is located in the rear on the right hand side for easy clean out. The hose adapter allows for convenient connecting to drain hose.

Extended cleaning-free condenser

Electrodeposition coating is applied to prevent condenser corrosion, and wire condenser are applied to prevent dust from accumulating.

Sturdy and clean, durable cabinet construction

Exterior is made of white coated steel with stainless steel interior and doors.

Direct cooling type

Exterior digital thermometer standard for easy visibility

Exterior digital temperature display allows easy reading and precise and constant temperature. This level of precision allows milk to remain fresh and safe over an extended period of time.

High-density polyurethane insulation

The entire cabinet construction is foamed-in-place using high density, environmental friendly CFC free polyurethane insulation.

Stainless steel self-service doors have drop front feature and hold-open flip-up top lid

4" dia. swivel casters standard for easy movement, two with brakes to lock the unit in place

Refrigerator holds 33°F ~ 38°F for the best in milk preservation
